2 Practical Training

Enter Engine Number from section 4.0 & have the boxes initialled by someone listed in section 5.0.

2.1. Cold Engine, Preparation for Driving	No.							
Check Water Level								
Sweep Tubes								
Clean out Grate and Ashpan								
Light Fire								
Oil up								
General Inspection								

2.2. Boiler Water checks and Management	No.							
Blow down Gauge Glass								
Operate the injector								
Operate the boiler feed pump								
Pick up water with steam lift hose								

2.3. Running the Engine out of gear	No.							
Assessing the motion position prior to starting								
Simpling valve operation								
Regulator Control								
Reversing the motion								
Stopping the motion								

2.4. Engaging the road gears	No.							
Position of gear levers								
Locking gears in position								
Driving on a single pin/both pins								

No.	No.	No.	No.	No.	No.	No.	No.
	No.	No. No.	No. No. No.	No. No. No.	No. No. No. No.	No. No. No. No. No.	No. No. No. No. No. No.

2.6. Fire, steam and water management	No.							
Maintaining steam								
Maintaining boiler water								
Maintaining the fire								

2.7. Steering techniques	No.							
Chocks (or Scotches)								
Brakes								
Driving Forward								
Reversing to a trailer								
Driving with a trailer								
Reversing a trailer								
Lining the engine up for belt work								

2.8. Using ancillary equipment	No.							
Using the winch								
Introduction to ploughing								
Roller work with scarifier								
Belt work with governor								

3 Theoretical Training

3.1. Safety	Date	Witness
Safety Briefing		
Essential Tools & Equipment		
Operating Check list		

3.2. Design and construction	Date	Witness
Locomotive Boilers		
Boiler Fittings		
Lubrication and gland packing		
Water Management		
Boiler Cleanliness		
Gauge Glass Routine		
Fusible Plug Replacement		

3.3. Preparing for use	Date	Witness
Fire Management		
Effective use of Cylinder Drain Cocks		

4 Record of Engines used

No.	Maker	Works No.	Reg. No.	Туре	Year Built	Owner
