

Exciting Developments to Your NTET Membership Experience

Dear Members,

We're delighted to share some exciting developments we've been making to enhance your experience as a member of the National Traction Engine Trust.

The majority of the developments have been made to the NTET website. This is the central hub for everything happening across the Trust – your go-to place for the latest news, upcoming events and meetings, and a rich archive of resources. Whether you want to keep up with current activity, explore past materials or stay connected with the wider community, ntet.co.uk is the first stop on the journey.

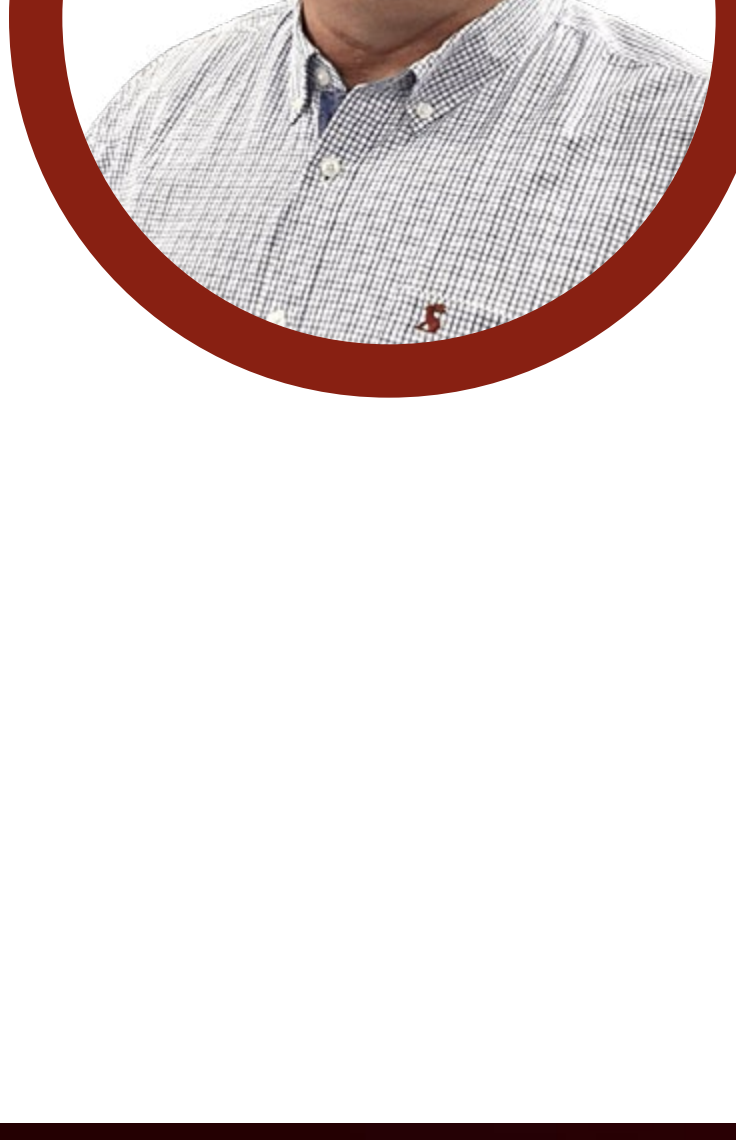

Thank you for your ongoing support – I hope you find the new developments useful and enjoyable.

With very best wishes

Rob Wing

Chair, National Traction Engine Trust

 chairman@ntet.co.uk

Your New Exclusive Members' Area

The centrepiece of these improvements is our brand-new Members' Area on the NTET website, which gives you convenient access to the following wealth of resources.

Your Personal Profile

Customise your membership experience with your own profile image and background. View and edit your membership details, access your digital membership card, and keep track of your apprentice logbook and records (both Training Tasks and Engine Logbook).

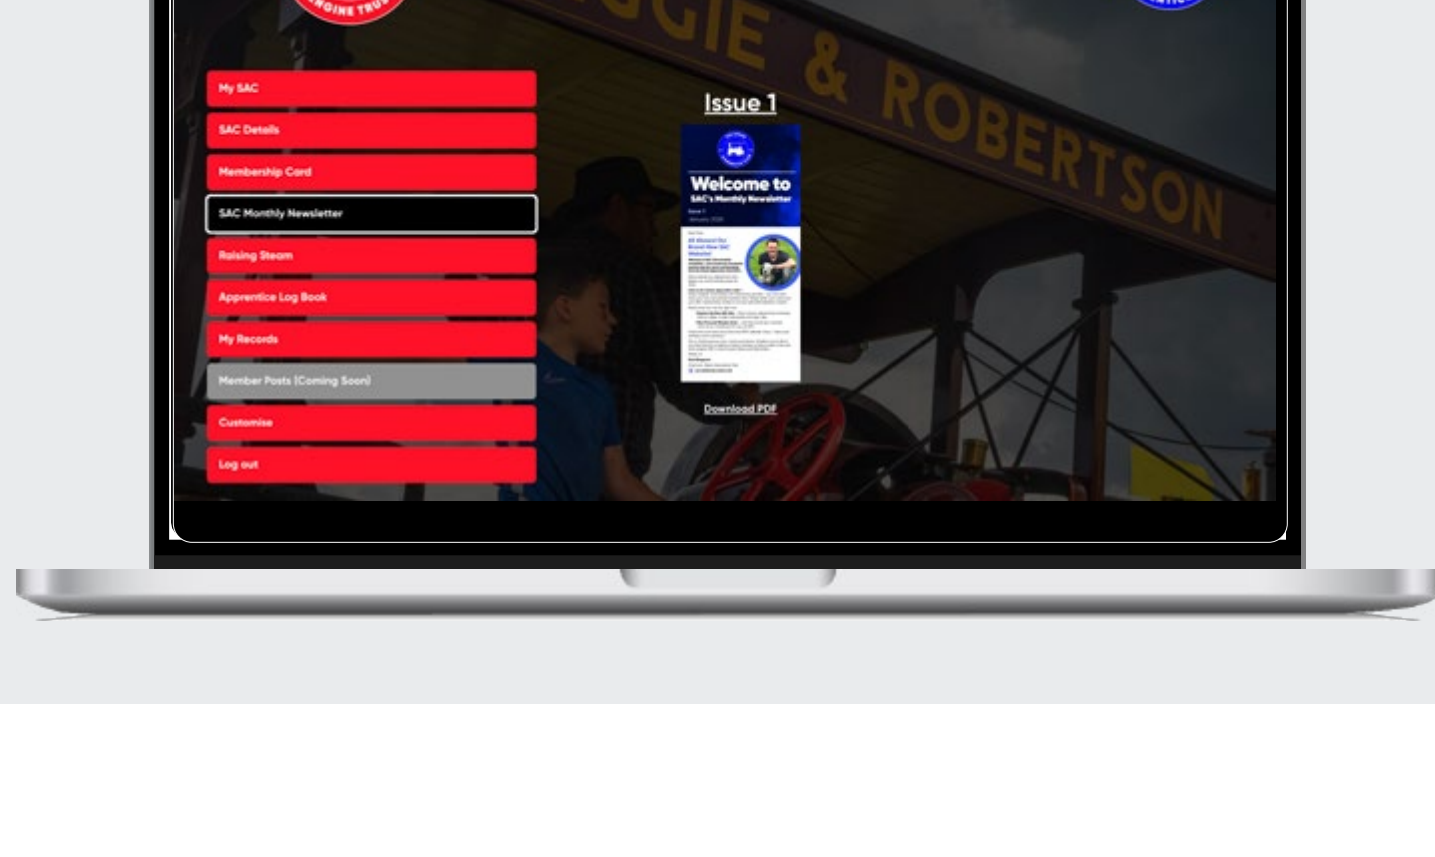

Digital Magazine Archive

We are making every issue of **Raising Steam** and **Steaming** available at your fingertips. Browse back issues whenever you like, whether you're at home or on the go.

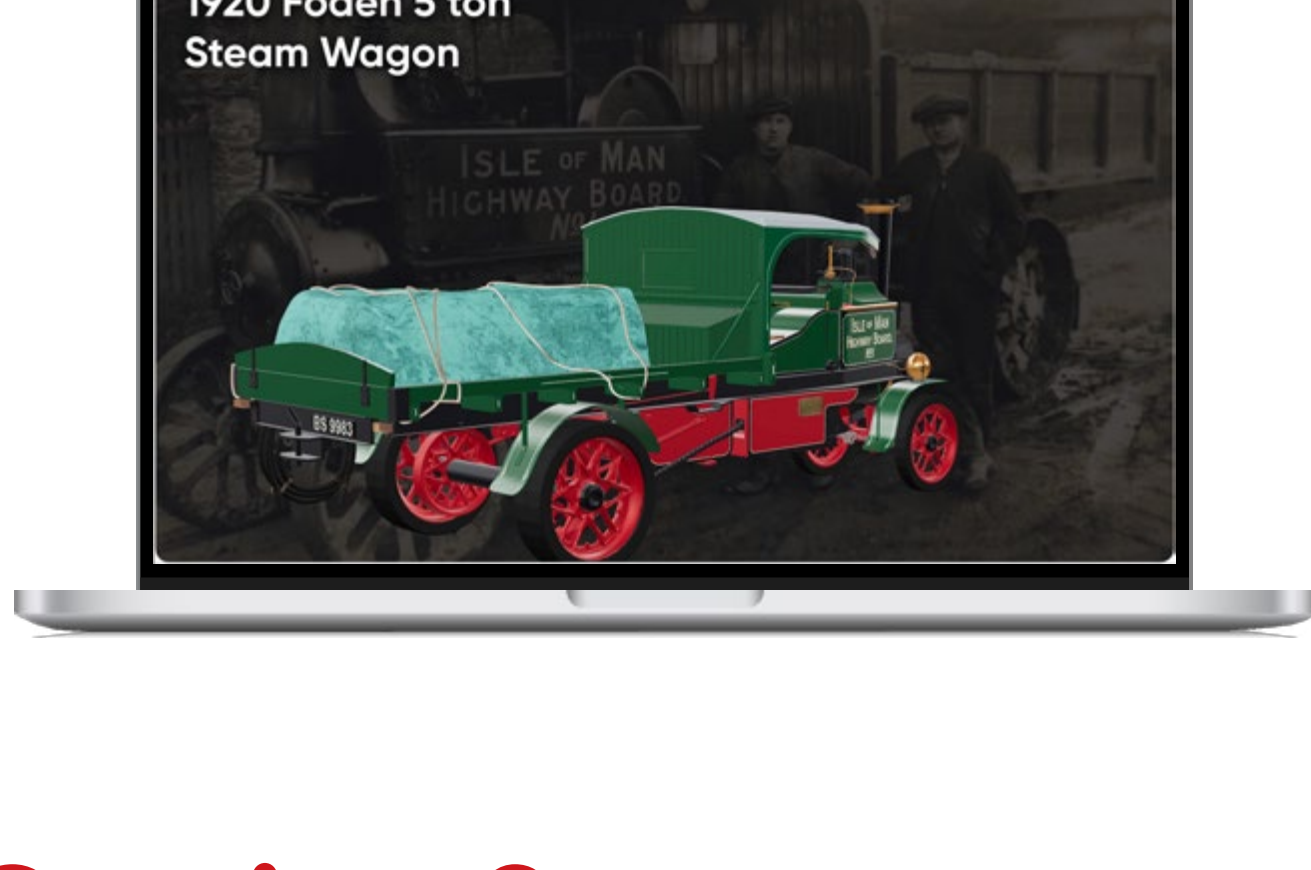

SAC Benefits

Steam Apprentice Club (SAC) members can also access the monthly SAC newsletter through the Members' Area, plus information about Driving Days and Rally Days as they're organised and announced.

Showcase Your Pride and Joy: Member Engines

One of our most exciting new features is "Member Engines" – a platform where you can showcase your engine to fellow enthusiasts and the wider community. Upload details, images and videos of your pride and joy, including incredible Augmented Reality (AR) views that allow visitors to explore your vehicle in remarkable detail. This is more than just a gallery – it's a virtual archive of knowledge, passion and craftsmanship that celebrates our shared love of road steam!

Coming Soon

We're not stopping there! Here's what's on the horizon:

- Member Posts**
Share your experiences, tips and stories directly through the Members' Area
- Monthly Newsletter**
Exclusive updates about NTET developments delivered straight to your inbox
- Regular Updates**
Informative, educational posts via the website and social media to keep you engaged with the latest in road steam

Getting Started

To access your new Members' Area, simply visit the NTET website and verify your account. If you have any questions or need assistance, our membership team is here to help.

We're committed to growing our community and aim to welcome 200 new members by the end of 2026. If you know someone who shares your passion for road steam, why not encourage them to join us?

Thank you for your continued support of the National Traction Engine Trust. We hope these improvements enhance your enjoyment of membership and look forward to seeing your engines featured in our new Member Engines showcase!

Questions?

Please contact the membership team at NTET.
